

**INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY JUNE 9, 2004 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 1**

CURRENT SITUATION:

Initial attack activity was light nationally with 141 fires reported. Four new large fires were reported, two in the Rocky Mountain Area, one each in the Southwest and Southern California Areas. One large fire was contained in the Southern Area. Very high to extreme fire indices were reported in Alaska, Arizona, Colorado, Florida, Georgia, Kansas, Nevada, New Mexico, Oklahoma, Texas, Utah and Wyoming.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

GAVIOTA, Santa Barbara County Fire Department. A California Department of Forestry and Fire Protection Type 1 Incident Command Team (Henson) is assigned. This fire is 15 miles west of Santa Barbara, CA in chaparral and grass. Inaccessible terrain and limited roads are major concerns. Strong westerly winds pushed fire activity along HWY 101, resulting in a temporary closure of the highway and threatening the community of Arroyo Hondo. The temporary closure of Hwy 101 is no longer in effect.

CASTLE, Tulare Unit, California Department of Forestry & Fire Protection. This fire is one half mile from Woodlake, CA in grass. Wind-driven fire activity was reported. No further information was received.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
GAVIOTA	CA	SBC	7,100	40	6/10	1,438	46	87	15	4	2M
CASTLE	CA	TUU	400	60	UNK	124	3	15	6	0	NR

SOUTHWEST AREA LARGE FIRES:

PEPPIN, Lincoln National Forest. A transfer of command from Type 2 Incident Management Team (Bateman) to a Type 3 organization occurred yesterday. This fire is six miles northeast of Capitan, NM in timber. Steep terrain, poor accessibility, heavy fuel loading, prolonged drought and high winds continue to be major concerns. Moderate surface fire, mostly backing down hill was observed.

KP, Apache-Sitgreaves National Forest. This fire is 20 miles south of Alpine, AZ in brush and mixed conifer. Minimal fire activity was observed.

THREE FORKS, Apache-Sitgreaves National Forest. A Type 2 Incident Management Team has been ordered. This fire is 11 miles west of Alpine, AZ in ponderosa pine and mixed conifer. Active fire behavior produced significant surface runs, group torching and spotting.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
PEPPIN	NM	LNF	51,685	80	UNK	226	4	7	3	12	5.6M

THREE FORKS	AZ	ASF	3,500	30	6/10	205	7	10	4	0	10K

ROCKY MOUNTAIN AREA LARGE FIRES:

GREASEWOOD, White River Field Office, Bureau of Land Management. A Fire Use Management Team has been ordered. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is 17 miles southwest of Meeker, CO in grass and sage brush. Active fire behavior with running, crowning, torching and spotting was reported. This will be the last narrative report unless significant activity occurs.

PURGATORY, Pueblo County. This fire is in 20 miles south of La Junta, CO in grass, brush and hardwood timber. Minimal fire activity was reported. No further information was received.

BENT CANYON, Pike and San Isabel National Forest. This fire is 24 miles south of La Junta, CO in grass and Pinyon-juniper. Active surface fire with torching was observed. No further information was received.

OUTLOOK:

Red Flag Warnings: Northwest and southern Arizona for strong southwest winds and low humidity.

For southern 2/3 of Nevada, excluding only Humboldt County, Elko County, northern Washoe, Lander and Eureka Counties on Monday due to gusty winds and low relative humidity.

Fire Weather Watches: For high winds and low humidity for Colorado River area and upper deserts.

Northern Arizona and the northwest third of New Mexico for strong south to southwest winds and low humidity.

In effect over western and southern Colorado for dry fuels, very dry humidity, windy conditions, and dry lightning

Weather Discussion: An upper low over Nevada will bring strong, gusty winds to portions of the Southwest, Great Basin and Rocky Mountain Areas. Mid and upper level moisture will be increasing over New Mexico and Colorado for widely scattered thunderstorms.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
SOUTHERN CALIFORNIA AREA Low clouds, fog and morning drizzle for the coastal mountain slopes westward. A chance of mountain thunderstorms.	60 to 75 coastal areas. 60 to 75 mountains. 70 to 80 valleys. 80 to 95 upper deserts. 90 to 100 lower deserts.	10 to 25% deserts. 25 to 40% elsewhere.	Southwest to northwest 12 to 25 mph with higher gusts.
SOUTHWEST AREA Windy to breezy, with partly to mostly sunny skies. Widely scattered thunderstorms from eastern Arizona to west Texas, with dry lightning possible eastern Arizona and western half New Mexico.	Upper 60s to mid 80s mountains, mid 80s to near 100 degrees lower elevations.	10 to 25% Arizona and New Mexico, 25 to 40% west Texas.	South to southwest 15 to 30 mph. Gusts to 35 to 50 mph across parts of Arizona and northwest New Mexico.
ROCKY MOUNTAIN AREA Widely scattered thunderstorms. Storms mainly dry over Colorado and southern Wyoming.	75 to 85, except 90s over portions of Colorado.	Less than 15% over portions of Colorado and southern Wyoming, with higher values elsewhere.	South wind 15 to 40mph over southern portions of the Rocky Mountain Area, with 10 to 25mph in the north.
WESTERN GREAT BASIN AREA Mostly sunny and windy.	North: 80s to near 90 South: 80s to 100 Mountains: 70s & low 80s	North: 10 to 18% South: 4 to 12% Mountains: 12 to 21%	Northeast: Southwest to west at 15 to 25 mph Northwest: Southwest to west at 10 to 20 mph with gusts to 35 mph South: Southwest at 10 mph
ALASKA AREA Interior... Mostly cloudy in the south with occasional showers. Mostly sunny with isolated showers and thunderstorms in the north.	Upper 50s to upper 70s.	35 to 45% in the south. 20 to 30% in the north.	West to northwest winds 5 to 15 mph.

OPERATIONAL BRIEFINGS

Operational briefings are critical to safe fire operations. To ensure a consistent and effective briefing, a standardized briefing checklist should always be used. The following checklist is printed on the cover of the NWCG Incident Response Pocket Guide:

● Situation:

- Fire name, location, map orientation, other incidents in the area
- Terrain influences
- Fuel type and conditions
- Fire weather (previous, current, and expected)
- Fire behavior (previous, current, and expected)

● Mission/Execution:

- Command (Incident Commander/immediate supervisor)
- Commander's intent
- Specific tactical assignments
- Contingency plans

● Communications:

- Communication Plan (tactical, command, air/ground frequencies, cell phone numbers, etc.)
- Medivac Plan

● Service/Support:

- Other resources that may be working adjacent to you and those available to order
- Aviation operations
- Logistics (e.g., transportation, supplies, equipment)

● Risk Management:

- Identify known hazards and risks
- Identify control measures to eliminate hazards and reduce risk
- Identify trigger points for disengagement or reevaluation of operational plan

● Questions or Concerns
